Программирование    Адаптивная верстка    Базы данных    Agile  
Web Application Development

## Driving experience

---

Driver's license category B

## Further information

---

About me

Worked on typescript (next js, mongoose, typegoose, cron, axios, antd), react, mongo db, jira, bitbucket, confluence. I know object-oriented programming in C#, C++, WPF, I understand PC components, a little in engineering, namely low-current systems, worked with proxies, worked in a team. I can make a telegram bot that can parse ads in olx, roof, wheels, etc. I can make a client and admin interface using antd. I make scripts for pulling specific records in the database, caching, page optimization.

You can check my 1 work to this link: <https://uyghurlearn.vercel.app/>
